- Pathr.ai
- Enigma
- Data Training
- AI Trainer
- Data Analysis

Academic Projects

E-commerce website | PHP | 3rd YEAR 2ND SEMESTER PROJECT

- PayPal integration
- E-Mail verification for user
- Use of OCI database

Data Warehouse Design | Apex Oracle | 4TH YEAR 1st SEMESTER PROJECT

- Extract Load Transform Process
- Package, Procedure, Function creation
- Report Generation in Oracle Application
- Performance Tuning

Bug Tracking App | Windows Form APPLICATION | 4TH YEAR 1st SEMESTER PROJECT

- Windows Form Application which track bugs and provides detail information about the bugs.
- Conducted thorough testing to ensure reliability.
- Documented project details and delivered compelling presentation.

Blood Bank Web Application | ASP.NET MVC| 4TH YEAR 2ND SEMESTER PROJECT

- *Planned to implementation stages*
- Designed Easy User Interface (UI) and implemented necessary features
- *Features include donor registration and request processing*
- Sorting Donor list by Location and provide contact details
- *Conducted rigorous testing to ensure user ease and implemented security registration through email code.*
- Documented project details and delivered compelling presentation.
