# Academic Projects

**E-commerce website | PHP | 3rd YEAR 2ND SEMESTER PROJECT**

· PayPal integration

· E-Mail verification for user

· Use of OCI database

**Data Warehouse Design | Apex Oracle | 4TH YEAR 1st SEMESTER PROJECT**

· Extract Load Transform Process

· Package, Procedure, Function creation

· Report Generation in Oracle Application

· Performance Tuning

**Bug Tracking App | Windows Form APPLICATION | 4TH YEAR 1st SEMESTER PROJECT**

· Windows Form Application which track bugs and provides detail information about the bugs.

· Conducted thorough testing to ensure reliability.

· Documented project details and delivered compelling presentation.

**Blood Bank Web Application | ASP.NET MVC| 4TH YEAR 2ND SEMESTER PROJECT**

· *Planned to implementation stages*

· Designed Easy User Interface (UI) and implemented necessary features

· *Features include donor registration and request processing*

· Sorting Donor list by Location and provide contact details

· *Conducted rigorous testing to ensure user ease and implemented security registration through email code.*

· Documented project details and delivered compelling presentation.

# Work Experience

**6-MONTH INTERNSHIP ON ASP.NET  AT PROFESSIONAL COMPUTER SYSTEM (PCS)  (2017-2018)**

- MVC Webapp
- Web Forms
- SQL Databases
- Experience with Senior Developers

**DESIGNER AT GAULE-TECH (PHOTOSHOP/ILLUSTRATOR)  (2022-PRESENT[FREELANCE])**

- LOGO DESIGN
- PAMPHLET DESIGN
- LEAFLET
- BASIC GRAPHIC DESIGN

**CLOUD WORKER AT CLOUD FACTORY (2019-PRESENT)**

- Pathr.ai
- Enigma
- Data Training
- AI Trainer
- Data Analysis
